Leem Apprenticeship
near Paris, France

Who are we?

Leem Apprenticeship is a higher education institution. Our main office (the administrative & financial part) is near Paris and the courses (the pedagogical part) are delivered all over France (taught in French engineering schools). We have courses (Master degree/5 years after A-levels) in :

- pharmacy
- cosmetics
- agricultural food
- development and production,
- quality,
- vigilance,
- clinical research...

Erasmus+

Enrichit les vies, ouvre les esprits.

Leem Apprenticeship is **Erasmus + accredited**.

The CFA is at the head of a consortium (9 engineering schools) and have received funds for individual long-term mobilities for Key Action 131 (valid until July 2025, which, of course, we want to renew).

L'ALTERNANCE
DES INDUSTRIES DE SANTÉ

Our offer

As courses are all in French, **studies mobilities** (in French universities or engineering schools) can only be for international students who have at least a B2 level in French.

For students with a low level in French, there are **training mobilities** (a B2 level in English is required). As our French students are also working (as apprentices) in firms (such as Pfizer, Sanofi, Lili...), international students can come in those companies when French students are doing their mobility abroad (at least 2 months during the second semester of the academic year).

Our need

In France, to become an engineer (equivalent to a master degree but for specialised students), you have to go **at least 9 weeks abroad**.

That's why our engineer apprentices are interested in long term mobilities (during the second semester of the academic year). Trainings in laboratories (in pharmacy or chemistry department) are their main goal.

Our current partnerships

- ✓ University of Belgrade, Serbia [University of Belgrade \(ub.edu.rs\)](http://ub.edu.rs)
- ✓ University of Groningen, Netherlands <https://www.rug.nl/feb/>
- ✓ Wirtschaftsuniversität Wien, Austria [healthconomics - WU \(Wirtschaftsuniversität Wien\)](#)
- ✓ University College Cork, Ireland [Academic English | University College Cork \(ucc.ie\)](#)
- ✓ « Lucian Blaga » University of Sibui, Roumania (agricultural sciences, food industry and environnement protection) <https://www.ulbsibiu.ro/en/>
- ✓ University of Iceland (environnemental sciences) in Reykjavík
[Faculty of Life and Environmental Sciences | University of Iceland \(hi.is\)](#)
- Institut Castellet (Chemistry) in Barcelona, Spain [FP QUÍMICA a l'Institut Castellet – Institut Castellet \(inscastellet.cat\)](#)
